Project

Effective partnership

for enhanced

recognition

EPER

Project outcomes

- Improved recognition procedures and implementation of the Lisbon Recognition Convention
- Compendium on EU experience and recognition practice
- Guide to the implementation of Recommendations on the recognition of qualifications held by refugees, displaced persons and persons in refugee-like situation
- Awareness-raising on the need to fully implement the Lisbon Recognition Convention
- Basis for further regional cooperation in the area of recognition

The project is co-funded by the Erasmus+ Programme- Key Action 3 /KA3/- Support to the implementation of EHEA reforms.

The project Effective partnership for enhanced recognition/ EPER aims at creating partnership and positive synergies for full implementation of the Lisbon Recognition Convention in Croatia, North Macedonia, Bosnia and Herzegovina, Montenegro and Serbia.

The Bologna Process Implementation Report 2018 has clearly shown that SEE countries have implemented the Lisbon Recognition Convention and have developed their recognition procedures in higher education at different levels, so there is a clear need to connect at regional level, share positive experience and best practices among partner countries, as well as learn from each other.

Partner countries in this project will have the opportunity for capacity building on full implementation of the Lisbon Recognition Convention, and more specifically to learn about the possible ways of alleviating recognition problems and improving the understanding of the Lisbon Recognition Convention principles. The project will provide the basis for further policy development at national level and will give impetus for future mutual cooperation in the area of recognition of foreign higher education qualifications.

Partners

Competent national authorities responsible for recognition are from:

**Croatia,
Bosnia and Herzegovina,
Serbia,
Montenegro and
